# AUSTRIA OUT OF WAR

## ONCE POWERFUL EMPIRE RULED BY THE HOUSE OF HAPSBURG BY ACCEPTANCE OF ARMISTICE TERMS IS DEFINITELY AND FINALLY CONQUERED

### ALLIED FORCES HAVE SMASHED AUSTRIAN CENTER

The British, French and Italian forces attacking the Austrian line in Italy have gone more than five miles beyond the Piave River and captured the important town of Conegliano, threatening to cut off the Austrian forces on the line from that point down to the Adriatic. The shaded portion of the map indicates the advances since the beginning of the offensive. Late dispatches from the Italian front report American troops from Olgio are taking part in the fighting advance upon Austria by way of the Julian Alps.

## GERMAN ARMIES FACE UTTER RUIN

Several Times During The Last Three Months Germany Has Been Able to Escape Ruin. Now It Seems The Doom Of Germany's Armies Is At Hand.

(Associated Press War Editor)

Smashing blows are being dealt the Germans on the western front and collapse of the present enemy defense positions appears close at hand.

In the Italian theater hostilities ended today at 9:00 o'clock eastern time, but up to that hour the Italians and allied forces continued to press the Austrians on the entire front.

On the northern end of the front in France Field Marshal Haig Monday morning launched a new attack south of the Scheldt in the region of Valenciennes. The operation began successfully on a wide front and this vital sector of the German positions is in great peril.

The French army maintained its pressure but fighting activities are less than on Sunday and last week. German artillery has been active along the Aisne front, probably protecting an enemy retirement which is inevitable in view of the allied successes north and east.

General Pershing's armies are pressing forward east and west of the Meuse and Germans apparently not only are not prepared to make a stand. Stenay and the gap in which it lies is being encircled and its fall appears to be near.

In the center west of the Meuse the American first army has driven for-

ward thirteen miles south of Sedan. The most important German railway center between Mezieres and Metz.

Germany deserted by her allies is apparently facing a great disaster on the western front. There have been many times during the past three months that it seemed the Teutonic armies were in a critical position but they always have managed to avoid a debacle. Now, however, there is a greater possibility than ever that the hour of Germany's military doom is near.

This crisis has arisen during the great three days American and French attacks west of the Meuse river which seemed to be gaining but little apparently sapped the strength of the enemy.

When the break came Saturday it took on aspects of a rout rather than of orderly retirement such as has been carried out on dozens of battlefields from the North Sea to Chateau Thierry since July 18th.

On Sunday evening at five o'clock American contingents were in Belzel Woods, 6 miles west of Stenay. They were only 14 miles south of Sedan. It now appears that the Germans who have been holding the line running westward through the Champagne country cannot retreat eastward.

### CAMP COOK IS KILLED ON CYCLE

By Associated Press Dispatch.  
Chillicothe, O., November 4.—Tony Curo, member cook and bakers school, Camp Sherman, was killed when a motorcycle he was riding struck a culvert near the Maple Grove road on the Frankfort pike, Sunday evening. He was hurled 75 feet and died of injuries two hours later.

### FIRST K. OF C. MARTYR IN FRANCE

EDMUND H. LENNON

Edmund H. Lennon, of Joliet, Ill., was the first martyr in the Knights of Columbus overseas service. He died at Nuilly, France, October 21. Lennon was formerly a star baseball player. He played with the famous Lennon team, composed of nine brothers. His death was the first break in the team.

## ALLIED COURT TO TRY GUILTY

British Attorney General Would Have Allied Nations' Court Try Those Guilty of Crimes of War.

(By Associated Press Cable)

London, November 4.—Establishment of a grand court of allied representatives, civil and military, for the purpose of trying those guilty of crime during the war, is advocated by Sir Frederick Edward Smith, the British Attorney General, in an interview in the Daily Express.

WASHINGTON, NOVEMBER 4.—(Associated Press Dispatch)—Austria-Hungary, or what remains of that once powerful empire after its recent internal disintegrations, was definitely eliminated from the war at nine o'clock this morning.

At that hour, three o'clock p. m. in Rome and Vienna, the armistice prepared by the Supreme War Council and accepted by the Austrians became effective. Germany thus is to battle alone until such time as she too accepts the armistice terms now in preparation at Versailles, or surrender.

In advance of publication of the conditions under which Austria joined the ranks of Germany's other once vassal states—Bulgaria and Turkey—military men here believe they would not only render the Austrian armed forces utterly harmless, but would furnish an index to the terms on which Germany may end her hopeless struggle.

## DRASTIC TERMS IMPOSED

WASHINGTON, NOVEMBER 4.—(Associated Press Dispatch)—Terms of armistice under which the land and sea forces of what once was the Austro-Hungarian empire have laid down their arms, were announced today simultaneously in Washington and the allied capitals. They accomplish complete surrender and open Austrian and Hungarian territory for American and allied operations against Germany.

So from this drastic document, it may be stated, may be gleaned an accurate outline of the conditions nearing completion in the Supreme War Council at Versailles under which Germany may have a cessation of hostilities.

The terms by which the debacle on the Italian front ended today at three o'clock p. m. (nine a. m. eastern United States time) include complete demobilization of Austrian forces, surrender of one-half of all artillery and military equipment; occupation by American and allied forces of such strategic places as may later be selected; use of Austrian railroads for operations against Germany; evacuation of all invaded territories; leaving behind all equipment and supplies, including coal; surrender of a portion of the Austrian surface and submarine fleets and disarmament of others under American and allied control; surrender of all German submarines in Austrian waters and repatriation of allied and American prisoners without reciprocity.

Evacuation of Austrian territory roughly corresponds to the boundary lines claimed by Italy under the Italia Irredentia or locality of the London program. The right of occupation by allied forces is reserved, local authorities to maintain order under allied supervision.

The terms of the armistice are to be carried out under the direction of Marshal Foch who will designate material to be turned over and supervise the movement of Austrian forces to the rear.

All German troops in Austria-Hungary, Italy or the Balkans must be out or interned within fifteen days.

Destruction of any property by retreating forces is specifically forbidden.

Ships to be surrendered include 15 modern Austrian submarines; 3 battleships; 3 light cruisers;

nine destroyers; 12 torpedo boats; one mine layer and 16 Danube monitors to be designated by the allies. All other warcraft are to be concentrated and disarmed under allied direction.

Free navigation of all Austrian waters by both the war and commercial fleets of the allies is provided for.

### EXPLANATION OF EFFECT

WASHINGTON, NOVEMBER 4.—(Associated Press Dispatch)—The terms of the Austrian armistice with parenthetical explanations of minor errors in cable transmission were announced by the State Department as follows:

"Following are the terms of the armistice imposed upon Austria which will go into effect at 3:00 o'clock today.

"Military Clauses: No. 1. The immediate cessation of hostilities by land, sea and air.

"No. 2. Total demobilization of the Austro-Hungarian army and immediate withdrawal of all Austro-Hungarian forces operating on the fronts from the North Sea to Switzerland.

"With in Austro-Hungarian territory limited as in clause 3 below, there shall only be maintained as an organized military force, a force reduced to pre-war effectiveness, (effectiveness?).

"Half the divisional corps and army artillery and equipment shall be collected at points to be indicated by the allies and U. S. A. for delivery to them beginning with all such material as exists in the territory to be evacuated by the Austro-Hungarian forces.

"No. 3. Evacuate territories invaded by Austro-Hungary since the beginning of the war; withdrawal within such period as shall be determined by the commander in chief of the allied forces on each of the fronts of the Austro-Hungarian armies behind a line fixed as follows:

"From Pic Umbrail to the North of the Stelvio, it will follow the crest of the Rhetian Alps to the sources of the Adige and the Eisach passing thence by Mounts Reschen and Brenner, and the heights of Soetiz and Zoeller the line thence turned south crossing Mont Toblach and meeting the present frontier Carnic Alps. It follows this line up to Mont Tarvis and Mt. Tarvis watershed of the Julian Alps by the Col of Predil, Mont. Mangart, the Tricorno (Ter-glou) and the watershed of the Col. Di Podberdo and Idria. From this point the line turns south east toward the Schneeberg excludes the whole basin of the Save and its tributaries. From Schneeberg it goes down toward the coast in Shaway, as to include Castua Matugland Volsoea in the evacuated territories.

"It will also follow the administrative limits of the present province of Dalmatia including the north Lissarica and Trivania and to the south territory limited by a line from the (Semi-Grand) of Cape Planca to the summits of the watershed eastward so as to include in the evacuates area all the valleys and water course flowing toward Sebenico, such as the Cicola, Kerka, Putisnica and their tributaries. It will also include all the islands in the north and west of Dalmatia from Premuda Selve, Ulbo, Scherda, Maon, Paga and Puntadura in the north up to Meleda in the south as the neighboring rocks and islets and passages only excepting the island of Great and Small Zirona, Bua, Solta and Brazza. All territories thus evacuated (shall be occupied by the forces?) of the allies and the United States of America.

"All military and railway equipment of all kinds including coal within those territories (to be?) in

situations and surrendered to the allies, according to special orders given by the commander-in-chief of the forces of the associated powers on the different fronts.

No new destruction, pillage or requisition to be done by enemy troops in the territories to be evacuated by them and occupied by the forces of the associated powers.

"No. 4. The allies shall have the right of free movement over all roads and rail and waterways in Austria-Hungarian territory and of the use of the necessary Austrian and Hungarian means of transportation. The armies of the associated powers shall occupy such strategic points in Austria-Hungary at times as they may deem it necessary to enable them to conduct military operations or to maintain order.

"They shall have the right of requisition of payment for the troops of the associated powers (wherever) they may be.

"No. 5. Complete evacuation of all German troops within 15 days not only from the Italian and Balkan fronts but from all Austro-Hungarian territory.

Internment of all German troops which have not left Austro-Hungary within the date.

"No. 6. The administration of the evacuated territories of Austro-Hungary will be entrusted to the local authorities under control of the allies and associated armies of occupation.

"No. 7. The immediate repatriation without reciprocity of all allied prisoners of war and internal subjects and of civil populations evacuated from their homes on conditions to be laid down by the commander-in-chief of the forces of the associated powers on the various powers fronts. The sick and wounded who cannot be removed will be cared for by Austro-Hungary personnel who will be left on the spot with the necessary medical material required.

"No. 2. Immediate cessation of all hostilities at sea and definite information to be given as to the location and movement of all Austro-Hungarian ships.

"Notification to be made to neutrals that freedom of navigation in all territorial waters is given to the naval and mercantile marines of the allied and associated powers, all questions of neutrality being waived.

"No. 2. Surrender to Allies and the United States of 15 Austro-Hungarian submarines, completed between the years 1910 and 1913 and of all German submarines which are

## DAIRY PROPOSAL STILL PENDING

The Dairy proposal for the establishment of a million dollar Dairy plant in this city, is still pending, and probably nothing more will be done until after peace comes.

The proposal is by far the largest one presented to this city in recent years, and the location selected by the company is the Sales Barn and the land adjoining it.

It is expected that if local business men pull together in an effort to secure the mammoth dairy plant that it may be brought to this city, but unless some organized effort is made to show the concern back of movement that the plant is wanted here, it may be located in some adjoining city where there is a live commercial organization ready to take hold of the proposition made by the concern.

This city is favored because of its superb location in the very heart of the greatest dairy region in the state, and because of its excellent shipping facilities. The location of the Sales Barn is sought because of its proximity with the railroads.

## GREAT U-BOATS BUILT BY HUNS

By Associated Press Dispatch. Copenhagen, November 4.—The Rits Sted Tiden says it finds that German engineers have constructed submarines as ironclad cruisers. They are 340 feet long and of about 2000 tons. The vessels carry 80 men in their crew and are armed with 25 torpedoes, two 15-centimeter guns with 2000 shells and two 8.8 centimeter guns.

## XENIA LIFTS BAN

By Associated Press Dispatch. Xenia, O., November 4.—The ban on public meetings which has been existing for four weeks was raised today by order of Health Officer Grube. Schools must remain closed and children under 16 will not be permitted in theaters and other places of public assembly.

## FUNERAL SERVICES FOR C. R. ASHER

One of the largest funerals ever held in the New Holland cemetery, was that of Carrollton Radcliffe Asher, Sunday afternoon.

Relatives and friends from Leesburg, Greenfield, Circleville, Hillsboro and the surrounding neighborhood gathered with the family to pay a farewell tribute.

Rev. Keifer, the Methodist minister, made an affecting talk, and read the memoir.

The wife was unable to accompany the body of her husband back to Detroit for burial, owing to the illness of the eldest child, but Mr. Horton, General Sales Manager of the Riter Lumber Company, with which Mr. Asher was connected, brought the body from Detroit to New Holland.

A wealth of beautiful flowers surrounded the casket, among the special designs were Masonic Lodge, Riter Lumber Company of Columbus, Hardwood Club, Detroit, and other clubs at Detroit.

The pall bearers were four Masons, Howard Kirk, D. A. Timmons, Percy May of New Holland, Jessie Feagans of this city with two representatives of the Riter Lumber Company, Messrs. Horton and Leukart.

With relatives and friends attending were: Mr. and Mrs. Horton, Mr. and Mrs. Leukart three girls of the Riter Lumber Company office employees, Misses Laura and Kate Brundage and Miss Ruth Royer of Columbus, Mrs. Deeler, sister of Mrs. Asher of Toledo, Mr. Meyers, the father-in-law, of Lima.

## HOOVER DECLARES FOR PRESIDENT

By Associated Press Dispatch. Washington, November 3.—The Democratic committee tonight made public a letter written by Herbert Hoover, food administrator and chairman of the Belgian relief commission, to Frederic R. Couderc of New York City, in which Mr. Hoover said:

"I am for President Wilson's leadership not only in the conduct of the war, but also in the negotiations of peace and afterwards in the direction of America's burden in the rehabilitation of the world. There is no greater monument to any man's genius than the conduct of negotiations with the enemy by the president. If the final overthrow and surrender of autocracy can be accomplished through the German and their allied peoples themselves the president will not only save the lives of 1,000,000 American boys and countless innocent women and children, but will have attained more complete victory and a more permanent guarantee of peace than any other means."

## FESS ANNOUNCES A FINAL APPEAL

By Associated Press Dispatch. Washington, November 3.—Chairman Fess urged "every citizen who respects his rights to cast a ballot without official interference, scrutinize closely the activities of the administration, which has virtually taken over direction of the campaign to continue the present control in Congress." Some of the cabinet members, he said, have been away from the capital campaigning in Republican states and others have issued appeals.

"The president," said Mr. Fess, "armed with wider authority than is exercised today by any monarch on earth, makes a direct appeal for votes. This most unusual attempt of the head of the government to use his colossal power for party advantage in time of war, to try to capitalize the people's patriotism for partisan purposes, has aroused the nation as nothing since the civil war."

## ORDERED HOME BY PERSHING

Five American generals, all of whom have splendid records in the war, have been ordered home by General Pershing, according to an announcement made by General Peyton C. March, at Washington. The generals ordered home are Omar Bundy, commander of Fifth Army Corps; Clarence R. Edwards, commander of the Twenty-sixth (New England) Division; John E. McMahon commander of the Fifth (regular army) Division; George H. Cameron former commander of the Fourth (regular army) Division, and recently made a corps commander, and Beaumont B. Buck, former commander of the Second Brigade of infantry of the First Division, recently made a divisional commander. The reason for their return was not stated by General March, but it is understood they will be given important posts in this country.

## FARM NOTES

### Fall Garden Work.

It is probable that the war garden will be even a more important factor in the world's food supply next year than ever, whether or not peace is accomplished. It behooves gardeners to prepare for next spring now.

If at all possible manure should be obtained and applied at a rate amounting up to a ton to every 30 by 30 foot area. Street manure owing to its being mixed with so much oil and gasoline is not advised. If manure cannot be obtained, tree leaves, weeds and grass clippings may be used. Manure or other material should be plowed or spaded under this fall. This will assist the vegetable matter to become better decayed and incorporated with the soil, will make the ground capable of earlier working in the spring, and the turning of the soil will help to destroy many insects which harbor there. People having stiff heavy soils to work with can do nothing better just now than to act on these suggestions.—R. B. Cruickshank, Department of Horticulture, Ohio State University.

**Ohio Cheese To the Front**  
It may not generally be known that Ohio produces a large quantity of high grade cheese. Two of the five gold medals awarded at the recent National Dairy Show went to Ohio Cheese Makers with those from the entire Nation as competitors. The first prize and gold medal for both Swiss and cottage cheese fell to Buckeye cheese makers, as also did the silver and bronze medals and the four diplomas for Swiss cheese.

**Mouse Control in Orchards**  
"Mice in the orchards are allies of the Hun," says R. B. Cruickshank of the Department of Horticulture of the Ohio State University. Further in this connection he says, "that unless the young trees are protected considerable damage is often done during the winter by the rodent." As a protective measure he suggests, "that during the fall or early winter all weeds and rubbish should be hoed away from the trees, leaving the soil clean and well firmed about the trunks to a distance slightly beyond the spread of the branches. A slight mound around the trunk of the tree is an additional advantage."

**GREATER FARM EFFICIENCY.**  
During the past year the farm labor supply has been seriously reduced. Yet, the crop yields and farm production has not declined. The increased price of farm products has acted as a great stimulus in production; also, the information gathered by the Agricultural College Extension Service indicates that decided improvements in methods of farm management have been put into practice throughout the state.

Because of the farm labor shortage, a special attempt has been made by the extension service to present the leading factors relating to farm organization from the standpoint of a more advantageous use of labor. About 1500 farmers in the state during the past year have adopted the sound business proposition of keeping accounts. To assist in this work the Agricultural College Extension Service at Columbus furnishes an especially prepared farm account book to farmers who request it and who agree to keep it for a year. Special assistance in keeping the book and in summarizing the year's record is also offered.

**WHAT IS A FARM BUREAU?**  
"A farm Bureau is a country organization of farmers with which the United States Department of Agriculture and College of Agriculture co-operate in developing and promoting the farming interests of the coun-

try. The States Relations Service of the United States Department of Agriculture has expressed the hope that each agricultural county in the Nation will have a Farm Bureau organized before December 1, 1918.—O. M. Johnson, State Leader, County Agricultural Agents, Columbus, O.

## NEAR ACCIDENTS AT LOCAL CROSSINGS

Two near accidents occurred at the Fayette street crossing of the Pennsylvania railroad, Monday morning, and a number of similar narrow escapes occur almost weekly as a result of the fact that the public depends upon the watchman at the crossing but do not know that the watchman does not go on duty until about 9:15 each week-day morning, and is on duty only eight hours during the day.

Persons using the crossing are warned to exercise care in doing so while the watchman is not on duty.

## BRITISH CASUALTIES FOR THE MONTH

By Associated Press Dispatch. London, November 3.—The British casualties reported during the month of October total 158,825 officers and men. Of these 28,297 were killed or died of wounds. The casualties are divided as follows: Killed or died of wounds officers 2060, men 26,237; wounded or missing, officers 6965, men 124,463.

## RUSSIA FACING STARVATION

(Associated Press Correspondence) London, October 27.—Russia is facing a winter of hunger and cold augmented this year because of the extreme scarcity of fuel which prevails in all parts of that country. The lack of coal has been keenly felt ever since the loss of the Donetz basin to the Germans early last Spring. It affected the railroads and caused factories to be shut down.

The Czech-Slovak operations in Siberia and in the Ural regions have prevented the relief from that direction. The stores of wood in Moscow and Petrograd, owing to the lack of transportation facilities and other difficulties too numerous to mention, are far from sufficient to meet the demand for a long winter. A Moscow paper estimated months ago that the supply of wood in that city would hardly suffice to satisfy the needs of public utilities this winter, and in consequence, all private enterprises and homes could not hope to get even a limited quantity of it.

To one who has experienced the discomforts of a cold Russian winter even under better conditions, the situation is far from alluring. The chilly atmosphere of an unheated apartment, darkness in the streets and homes, the quiet of a city undisturbed by the rumble of street cars and motor vehicles, and, lastly, the uncomfortable feeling of an empty stomach—such are the prospects of the coming winter in Russia.

## HOW A SALESMAN SUFFERED

R. J. Porter, Sterling, Colo., writes: "I suffered with a painful, weak back. As traveling salesman I had to stoop frequently to pick up my grips, and the pain when I straightened up was awful. I was induced to try Foley's Kidney Pills. Relief was immediate. Say, they are great." Prompt and tonic. Blackmer & Tanquary, Advt.

## NOTED SCULPTOR ENTERS WAR WORK IN UNUSUAL WAY

By Associated Press Dispatch.

Philadelphia, Pa., November 4.—"I want a job; I am willing to do anything." The foregoing remark was addressed to an employment interviewer recently at the Hog Island Ship Yards, the speaker, an overall-clad man of middle age carrying under his arm a newspaper wrapped package, evidently his lunch. The man's face, however, belied his attire as a laborer. It was one of refinement and exceptional intelligence.

"What are your qualifications; what can you do?" the interviewer asked.

"I am a stone cutter and have worked at the trade nearly all my life," the applicant replied.

The interviewer did not reply immediately. He was looking at the hand which rested on his desk. It was long, slim and with tapering fingers, the nails neatly manicured and in appearance as soft as a woman's. "I am sorry, but we have no positions open for stone cutters at this time," the interviewer said.

"Then can you use a tracer?" the applicant persisted. "I really have few superiors in that line."

Tracers were badly needed, an affirmative reply was given, the applicant was accepted and put to work.

The foregoing in brief is a story of how Frederick E. Triebell, a noted American sculptor was added to the force of employees of America's greatest ship yard and assigned to a desk in the hull fabrication department. Work representing thousands of dollars lies neglected in his studio at Long Point, Long Island, but he is happy for he is doing something to win the war.

Previous efforts of Mr. Triebell to get into war work were unavailing, principally because of his age, fifty-two years. He tried for the camouflage service, for duty as an interpreter, the army intelligence and finally with the Y. M. C. A. for army but work in Italy.

## AUTOMATIC TRAIN AMONG LATEST

(Associated Press Correspondence)

American Regulating Base, Advance Zone, France, October 27. (By Mail) —The "automatic train" is one of the strange devices which has sprung out of the war, and there is nothing quite like it in the whole range of railroad transportation. It has been developed by the American military authorities here as one of the necessities of keeping up an automatic daily supply of food, forage and all requirements, to every unit of the American Expeditionary Forces in France. To do this with unvarying regularity each day, so that every man in every division stretching over a vast area along 300 miles of front, would have his daily needs supplied was a huge problem.

The only solution was to secure absolute uniformity, or a standardization of trains by which the make-up would be automatic day after day. And out of this has come the "automatic train" of the American army, which is one of the wonders of American organization.

Watching the make-up of the "automatic trains" as they go forward to American divisions on the fighting front, is like watching some gigantic jig-saw puzzle, for there is the same fitting together of confused parts, until at last all the pieces form a completed whole of fifteen of these so-called "automatic trains", 60 cars to a train, each train moving off to one of the American divisions.

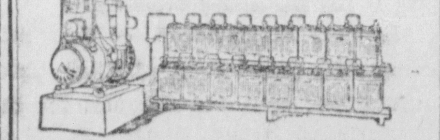

Here at a small interior village of the American Advance Force is the center from which the automatic trains move out daily. The place is well forward in the advance zone, just far enough away from the fighting to be out of reach of hostile raids and yet near enough to permit the supplies to move forward with the greatest facility.

It was a sleepy village last October, with 2,000 inhabitants, today it is a center of intense activity, with an American working force of 22,000—eleven times the population a year ago—with 72 miles of yard trackage, 45 enormous warehouses, and railways radiating to every point of the long front held wholly or in part by American troops.

## LEADERS FAIL TO TAKE STEPS

(Associated Press Correspondence)

Moscow, October 27.—Bolshevik leaders are divided as to the best means of perpetuating soviet Russia. One faction wants a real army to fight Germany and believes actual war with Germany will be necessary. Another faction, which includes those who lean toward the social revolutionists, would wage guerilla warfare against Germany and attack Germans wherever and whenever possible. The third and predominant group urges the preservation of the great peace and clings to the hope that social revolution in Germany and all the rest of the world will be brought about by constant agitation. Such a revolution in Germany, in the opinion of this group, will mean the restoration to Russia of all its territory and the permanency of the soviet government.

Many foreign observers believe the flower of the Russian army and the best of the old officers, fell in the first three years of the war. Other observers are confident the officers and men of the disbanded army constitute a mass out of which a smaller army will some day be created to overthrow German oppression.

## When Will The Boys Be Home

Among the other problems of the future which the American people are speculating about is what disposition will be made of the United States troops now in Europe and what will be the plan adopted in regard to the men now under the selective draft law provisions in America, both in and out of cantonment camps.

Will the troops now in Europe be brought back home and the recently inducted men set abroad, or will all of our troops be brought home as rapidly as possible, leaving the probable police duty in Germany, Austria-Hungary and the other nations of war-torn, chaotic Europe to the troops of France, Great Britain, Italy and Belgium?

Of course, only the future can answer that question definitely. So many complications are possible and probable in these history-making times that it is difficult to prophesy what the future will develop.

At present it seems that the tremendous armies of the European allies will be abundant to do all the policing after demobilization of the enemy occurs, making withdrawal of American troops not only possible but highly advisable.

The two million and more men of America now in Europe will be needed at home in industrial and agricultural pursuits because America must feed and outfit Europe, to a great extent.

In addition to that it will relieve the strain on ship tonnage. There seems now no need of maintaining a force in Europe to be fed and clothed after the war closes because the United States has no demands to enforce which are different from those of our allies and they have an abundant force in the field.

POEM FOR TODAY

THE KAISER'S PRAYER

I have given you trouble and terror,  
Strong torture of body and soul;  
I have made you, through blunder  
and error,  
Pay warfare's retributive toll.  
I have brought you defeat's obligation  
To add to the griefs that you bear,  
But pity me, men of my nation,  
My life from its penalties spare!

I have shed the brave blood of my  
brothers,  
My hands are the red hands of  
Cain;  
I have broken the hearts of our  
mothers—  
Their husbands and children are  
slain.  
I have sown desolation and sorrow,  
The Fatherland reeks with my sins  
But save be, I pray you, tomorrow,  
When Justice its reaping begins!

I have killed both my comrades and  
strangers,  
I have murdered on land and on  
sea;  
No soul has been safe from the dan-  
gers  
Suggested or ordered by me.  
I have tried to kill all who defied  
me,  
That I might rule land, air, and  
wave,  
But oh, let not this be denied me—  
My body I beg you to save—  
—Lurana Cheldon.

FRIEDERICK ADLER IS GIVEN FREEDOM

Socialist Who Assassinated the Premier Stuerghk Two Years Ago Is Released.

(By Associated Press Cable)  
Amsterdam, November 4. — Dr. Frederick Adler, who assassinated the Austrian Premier Stuerghk on October 21, 1916, has been released from prison, according to Vienna advices.

Dr. Adler is a son of Dr. Victor Adler, the leader of the Austrian socialists and was editor of the newspaper Der Kampf when he assassinated the Count. Young Adler declared the assassination was purely political and was due to the failures of the Premier to convene the Austrian parliament.

Adler was sentenced to death and efforts to secure a commutation failed until September, 1917, when the death sentence was commuted to 18 years' imprisonment by Emperor Charles.

BOTH CLAIM VICTORY IN ELECTIONS

By Associated Press Dispatch.

Columbus, O., November 4.—Ohio's silent political campaign came to a close today with both parties claiming victory. Democrats claim the election of Governor James M. Cox by a majority of 80,000, while Republicans claim Frank B. Willis will be returned to the executive office again after two years by a majority of more than 30,000.

The congressional campaign which has waxed warm since President Wilson made his appeal for the return of a Democratic congress, resolved itself into an issue of whether his appeal should be heeded, all other congressional issues of a local nature being forced into the background.

Both the wet and dry forces expressed confidence of victory also.

At both political headquarters it is predicted the vote will be light owing principally to so many voters being in the army and navy. It is believed the total vote will not greatly exceed 850,000.

EMPEROR CHARLES IS BOUND TO QUIT

(By Associated Press Cable)

Basel, Switzerland, November 4.—Emperor Charles of Austria-Hungary is determined to abdicate and will retire to Switzerland, German newspapers say.

The Emperor made this announcement, it is added, during a conference Saturday with the new Austrian government and other influential leaders in the dual monarchy.

HUNGARY WILL SOON BALLOT

(By Associated Press Cable)

London, November 4.—The population of Hungary a month hence will take a public vote to decide on the question of a monarchy or a republic, according to an Exchange Telegraph dispatch from Copenhagen.

In the balloting the women will have the same electoral rights as the men.

HEIGHTS TAKEN BY VICTORIOUS AMERICAN ARMY

Pershings' Grand First Army Advances 8 Miles Over 12 Mile Front Now Dominating All Railroads.

By Associated Press Dispatch.

Washington, November 4. — The first American army has captured dominating heights from the Germans northwest of Verdun and brought under fire of heavy guns the important railroads at Mont Midy, Longuyon and Conflans, General Pershing so reports in his Sunday evening communication announcing an advance for the first army of 12 miles on an 8-mile front in three days.

Prisoners number more than 5,000 and guns more than 100. In the action have been regulars and national army troops from Texas, Oklahoma, Kansas, Missouri, Colorado, New Mexico, New York, New Jersey, Maryland, West Virginia, Virginia and the District of Columbia.

RUSSIANS WILL REFUSE PAYMENT OF INDEMNITIES

Two Payments Already Made Will Be All The Blood Money Huns Will Get From Russia.

(By Associated Press Cable)

Copenhagen, November 4. — The indications are Russia will refuse to make any further indemnity payments to Germany, according to the Frankfurt Gazette.

The newspaper says that Russia, which had paid two installments of the war indemnities has stopped the transport of gold and bank notes to Germany. "Evidently" adds the Gazette, "she refuses to pay the last part of the indemnity."

## GERMAN RETREAT IS NOW CUT OFF BY AMERICANS

(Associated Press War Editor) It now appears that the Germans who have been holding the line running westward through the Champagne, cannot retreat eastward but must be diverted northward through Belgium.

This will add many weary miles to the length of the journey that seemingly must be begun at once.

In Belgium the fall of Ghent is imminent for the Belgians, British and French and Americans are rapidly moving ahead.

## ASK ABDICATION

(By Associated Press Cable) London, November 4.—The German socialists are not satisfied with the Emperor's proclamation issued Monday, according to a telegram from Copenhagen. The Vorwaerts says:

"The manifesto will not in any way change the standpoint of the socialists nor weaken the demand for abdication."

## UKRANIANS TAKE LEMBERG

(By Associated Press Dispatch, Amsterdam, November 4.—Warsaw newspapers say that hostilities have broken out between Polish and Ruthenian-Ukrainian troops. The latter, supported by Germans and Austrian regiments, captured Lemberg, in Galicia, on November 1st. Przemysl is in the hands of the Ruthenians.

# AUSTRIA QUILTS THE WAR AS HER ARMIES COLLAPSE

Last Prop of Germany Is Now  
Finally Out of The War.

Back Door to Germany Is Opened  
Wide by Austrian Collapse.

Germany's Capitulation Is Ex-  
pected Every Hour.

By Associated Press Dispatch.

Washington, November 3.—Armistice terms which the Austrians have accepted are expected here to furnish a clear index to those which the supreme war council at Versailles is preparing for Germany. Consequently their publication will carry greater significance than otherwise would attach since the Austrian surrender had been discounted in advance by the internal disintegration of the dual monarchy and the collapse of the Austrian forces on the Italian front.

Official announcement that the armistice had been signed reached the state department today. In making this known, officials gave no indication of the terms imposed, nor was there any explanation of why cessation of hostilities had been delayed 24 hours or more after the actual signing of the articles of surrender. The generally accepted view, however, seemed to be that it was desired to have virtually all Italian soil freed of enemy troops before the Italian armies were committed to end their attacks upon the routed Austrian forces.

Military men here said the terms which the supreme war council had prepared would make it impossible for the Austrians to renew hostilities, probably including the dismantling of the enemy troops and occupation of

strategic points as well. Some of these, namely Trent and Trieste, already have been occupied by Italian and allied forces.

Can Send Soldiers Into Austria.  
Free movement of the allied forces through Austria to attack Germany from the south should the supreme command decide such a stroke necessary in the future also is expected to be stipulated. Unofficial reports from Vienna today said the Germans were preparing for such an attack by feverishly digging trenches on and fortifying the Bavarian frontier.

The defection of Austria leaves Germany stripped of its last ally, and most of the military men here, both allied and American, believe that her capitulation will follow soon after the terms of Versailles are submitted.

Exchanges of views between Col. E. M. House, special representative of the American government in France, and the allied premiers continued today at Colonel House's home in Paris and apparently the general terms for Germany are not yet ready for submission to the allied military leaders for consideration with regard to military necessities. Colonel House is keeping President Wilson constantly advised as to the progress of events.

May Cut German Front in Half.  
Great importance is attached here to the course followed by the allied and American governments in deferring peace settlements with Austria, Turkey and Bulgaria until Germany also shall surrender or be crushed. This policy is counted upon to prevent any eleventh-hour attempt on the part of the Germans to sow seeds of discord among the allies.

In view of the general situation, the smashing Franco-American victories north and west of Verdun are regarded as significant. Unless an armistice interrupts, it is believed the thrust will be pressed home relentlessly to cut the German front in the west in half before there is another halt.

With hardened mountaineers of the Italian army available for use elsewhere, with the surrender of Austria, some observers look for immediate preparation for the invasion of Germany by way of Alsace-Lorraine. Italian picked troops might be spared at once to join such a campaign, as they would not be needed to carry out operations incidental to the Austrian surrender.

Not only will the whole fighting man power of the allied and American armies be available now for the task of crushing Germany's defensive front

## PLANS VISIT

PREMIER VENIZELLOS

Primer Venizelos of Greece has cabled here from London that he hopes to be able to accept the Hellenic Liberal Association's invitation to visit the United States. The cable message addressed to the president of the association says: "It has always been my ardent desire to visit the great democracy of the United States, but insuperable difficulties have always prevented it. I trust very soon to be in a position to fulfill my desire."

but to supplement the already vastly superior equipment of those armies in guns, air craft and all other war machinery, there is now at the disposal of Marshal Foch all the Bulgarian, Turkish and Austrian military equipment. To answer such a concentration, Germany has only depleted reserves of men and munitions.

## COST OF THE WAR TO UNITED STATES

By Associated Press Dispatch.

Washington, November 4.—War expenditures are not as great as the Treasury estimated five months ago, when it set the mark this fiscal year at about \$24,000,000,000. Expenses for October reported today amounted to \$7,664,862,000, including \$489,100,000 in loans to allies. The total was only a little more than expenditures last July and about \$250,000,000 less than the estimates for October.

Owing to unusual receipts of \$3,583,400,000 in October from popular borrowings, the working balance in the Treasury's general fund now stands at \$1,815,730,000 a new high record. From fourteenth liberty loan payments alone \$2,295,000,000 poured into the Government's coffers last month.

The total war cost to date is now calculated at \$20,561,000,000 of which \$7,017,000,000 has been loaned to the allies. Only a little more than one fourth of the expense has been raised from taxation and slightly less than three fourths from liberty loans and war savings.

## VESSEL ARRIVES WITH ALL LIGHTS

By Associated Press Dispatch.

An Atlantic Port, November 3.—A large French liner arrived here during the night with all her lights ablaze. This unusual procedure in war time was due, according to passengers, to a wireless message picked up at sea, which caused the captain to order paint scraped from the vessel's portholes to permit illumination of the decks.

While the contents of the wireless message were not made known to the passengers, many of them landed today with the impression that peace had been concluded with Germany and that "freedom of the seas" had been restored.

## HE'S BACK AGAIN!

Chas. Mossbarger and wife, of the Heglar neighborhood in Wayne township, report that a few days ago they heard a bell tinkling and saw a turkey buzzard flying over with a small bell suspended about its neck.

This is the first time in several years that the famous "bell buzzard" has appeared in this county.

## APPEAL MADE TO CHILDREN TO GET NUTS

Government Issues Appeal to the  
Boys and Girls of the Nation  
to Gather Nuts and Save Hulls  
to Save Lives of the Brave  
Yankee Soldiers.

By Associated Press Dispatch.

New York, November 4.—Every boy and girl in this country is again asked by the United States government to help save American soldiers from the horrors of German gas. The Chemical Warfare Division of the Army has urged them to gather every walnut, hickorynut and butter nut in the woods about their homes this fall to help make gas masks for the American soldiers in France. It is from the shells of these nuts that the charcoal for gas masks must come for the next six months or more.

There is said to be a ready and profitable market for the nutmeats, making it practicable to turn the shells in to the government immediately. Whole nuts can also be used. For collection purposes the Red Cross has arranged 160 collection centers throughout the country for the concentration of shells. They will be shipped from these points in carload lots to the government carbon plants at New York and San Francisco.

The Boy Scouts have enlisted the aid of their 442,000 young members in their work, as have the Camp Fire Girls. Through the Department of Agriculture all county agents of that department will organize nutting parties. In addition every school is urged to arouse the interest of its pupils and to encourage nut gathering in every spare moment of the pupil's time.

The aid of the young people will be absolutely necessary to supply the 1,000,000 pounds of shells and fruit stones that the government production schedule calls for. The government cannot buy more than one-third the necessary shells at present. In fact, they declare, that the shells of all oaks grown in the West Indies and Central America, if they could be obtained, would not fill the needs. They are making arrangements to get the shells from the East Indies, but it will be months before this plan can be put into co-operation. In the meantime they must mix the available shell charcoal with wood charcoal. This is not to the best interest of the men because the wood charcoal settles, making breathing difficult and it has not the absorptive qualities of shell charcoal.

The people, because of the smallness of the task asked of them, failed to realize its importance and did not respond well to the appeal made during the fruit season. What the help of each person means is shown by the fact that two peach stones or two large nuts turned in each day by each person in the nation would supply the needs. It is hoped, however, that no one will hold to this schedule as there will be many unthinking person's quota to fill.

Gas barrages for some time have been one of the principal factors in German warfare. Their mustard gas, with its horrible after effects, is one of the worst atrocities of the war. Even now, in their retreat, the Germans are using a non-exploding, perforated gas shell which they fire into marsh lands and which makes the entire district into which they are thrown a "section of death" for days afterward.

This can all be successfully combatted if Americans will turn in their hickory, brazil, walnut and butter nut shells and peach, apricot, plum, olive, date and cherry stones, for gas masks for American soldiers.

## CARRION CROWS VISIT FAYETTE

A number of carrion crows, which differ somewhat from the ordinary turkey buzzard and are extremely rare in this county, have been reported in Wayne township the past few days, where they have been mingling with the buzzards which have infested some districts.

## RED BLOODED MEN WANTED TO DRIVE TRUCKS IN FRANCE

The bars have been laid down in Fayette county registered men in class one who wish to get "over there" in a hurry and who desire to render urgent service to America.

The Local Board is in receipt of a copy of Special Order No. 235, which authorizes the Local Board to induct immediately any volunteers for motor transport service.

The men must all be in Class One "A" and some of the limited service men of the class who have been rejected on account of broken arches, flat feet or other minor defects, also may volunteer for this important branch of the service.

It is noted on the order that the call is most urgent, and that quick action is necessary, so that those volunteering should do so at once.

"They can be in France 90 days after enlisting" reads the order.

## EFFECT OF PEACE ON LIVE STOCK MARKETS

There is no meat surplus in sight anywhere, not even during the next half decade. Only in the case of hogs is a bare sufficiency likely.

The bare shelves of European larders must at least be replenished and this task will naturally devolve on the United States.

The mission of the International Live Stock Exposition at this crisis is to stimulate production of beef, pork and mutton on the most economical basis, to instruct breeders and feeders in recent development to inspire ambition to excel and demonstrate that live stock raising is profitable, otherwise it could not prosper.

Europe after the war will need the American stock cattle. It must come to this market for cows for breeding purposes and for seed stock of all the species and breeds.

There never has been a more opportune moment for renewed endeavor in the sphere of animal husbandry and the International Live Stock Exposition, which this year will be held from November 30th to December 7, is the chief exponent of the industry. —Exposition Bulletin.

## BOOZE QUESTION UP ON BIG SCALE

Eight States to Pass on Prohibition — Wheeler Expects  
Victory by July 1.

By Associated Press Dispatch.

Columbus, Ohio, November 3.—In 14 states tomorrow voters will face the wet and dry issue in the election of members of the legislature to which latter will come, during the winter and spring sessions, the question of ratifying the nation-wide prohibition amendment to the federal constitution.

Wayne B. Wheeler, Washington, national attorney for the Anti-Saloon League, in Columbus yesterday making plans for the coming convention for world-wide prohibition, said the dries were confident of carrying at least 30 of those states. That victory, said Mr. Wheeler, would give the dries more than the requisite number of states—35—necessary to ratify the amendment. Fourteen states have ratified to date and several more, said Mr. Wheeler, have dry legislatures now awaiting their meeting during the winter to ratify.

Mr. Wheeler said the dries expected to complete ratifications before July 1, when war prohibition goes into effect.

Voters of eight states will have state-wide prohibition as an issue tomorrow.

## YANK BURNS PLANE BEHIND HUN LINES

By Associated Press Dispatch.

Washington, November 4.—Lieutenant Artemus L. Gates, a naval aviator, previously reported missing in action, fell behind the German lines and calmly burned his machine before being captured, said a supplemental report received today by the navy department from Vice Admiral Sims. He apparently was uninjured and eyewitnesses said.

Gates was flying with a naval squadron and was brought down by anti-aircraft fire, which carried away the tank and landing gear of his plane.

## BAD BREATH

Dr. Edwards' Olive Tablets Get  
at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after-effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

## GOMPERS URGES FULL SUPPORT OF ADMINISTRATION

By Associated Press Dispatch.

New York, November 3.—Samuel Gompers, president of the American Federation of Labor and chairman of the American labor mission, who arrived at an Atlantic port yesterday, after a two months' tour of England, France and Italy, tonight issued a statement urging the nation to "follow the president and the president's advice, at least until after the triumphant conclusion of the war."

Mr. Gompers said that while the labor mission is not politically partisan, "following neither the Republican nor Democratic party" members of the mission who returned with him concurred in his appeal, feeling that the failure of the people to support the president "would be interpreted by the people of our allied countries as a weakening of the people of the United States" and "would put new encouragement and a new lease of life into the Germans and Austrians."

Explaining why the members of the mission felt it was the "permanent duty" of the people to support the president, Mr. Gompers said:

Wilson Loved by Allies  
"The spirit among all the people of our allied countries, from presidents, kings and cabinets to the great masses, is tense in the support of the policies, purposes and ideals set forth by President Wilson. They venerate him and have absolute confidence in the course he has pursued and the ideals which he has impressed on the consciousness of all, even the soldiers and people of Germany and Austria."

"While having a great understanding and appreciation of all that the president has stood for in the war, they regard his last note to Austria, as the master stroke. It crushed the spirit and morale of the soldiers and people of our two enemy countries. Nothing could be of greater injury to the cause of the United States and our allies in this war than the weakening of the people in their support of President Wilson at this juncture."

Speaking of the work of the mission in Europe, Mr. Gompers said it had been successful "far beyond our expectations." He said the messages of good will, sympathy and co-operation carried to the workers of the allied countries were accorded "most heartily and enthusiastic responses," and declared that the people showed a determination to carry on the war to a triumphant conclusion.

It was announced that those members of the mission who have returned will attend the national labor demonstration in Chicago next Friday.

The allies during the month of October captured 108,343 prisoners, including 2,472 officers, as well as 2,064 cannon; 13,639 machine guns and 1,193 mine throwers.

### COMMITTEE MEETS WAR WORK LEADERS

Messrs. Frank C. Parrett, Roy McClure, M. S. Daugherty and W. W. Hamilton Monday attended a meeting in Columbus as representatives of the Fayette County War Council, for the purpose of taking the matter of war work funds in connection with the coming campaign to raise an immense sum in America for the various phases of war work.

The meeting was presided over by George W. Perkins, of New York, and John R. Mott, representing the National War Work Committee. A luncheon was held at the Deshler Hotel.

### BROUGHT HERE FOR BURIAL SERVICE

The body of Mary Duckwall, who died in Lancaster, will arrive in this city on the 9:55 Pennsylvania train Tuesday morning, and be taken directly to the Washington cemetery for burial. A short service will be held at the grave.

### CONVALESCENCE

"Getting better" is the most serious time for those who have had grippe, influenza or other severe sickness. Something more than ordinary good food is required to build you up. A tonic is needed, and for this purpose doctors usually prescribe some form of Iron, Nux Vomica, Gentian, and Zinc Phosphide.

The Iron especially is very essential but in most preparations it causes constipation. In Dr. Chase's Blood and Nerve Tablets this is overcome however, by the addition of Aloin to the other tonic remedies.

As these tablets contain all of these essential tonics in any easily assimilated form, they make a pleasant safe and sure health restorer and of inestimable value at this time.

Weigh yourself before taking and watch the rapid progress of returning health.

Dr. Chase's Nerve and Blood Tablets may be had at almost any druggists at sixty cents a box. Special strength ninety cents. Advt.

### TO MAKE SPECIAL EFFORT ON STAMPS

The Fayette County War Work Council at a meeting Saturday night made plans for raising the bulk of the amount of Fayette's quota of War Savings Stamps which remains to be subscribed during the next few weeks.

Direct appeals will be made to those who can buy stamps in an effort to make Fayette county 100 per cent patriotic by absorbing the entire quota of the stamps.

In the meanwhile every one who can buy a few more stamps is urged to do so with out further delay so that the quota may be taken and the necessity of a concerted drive by the War Council be made unnecessary.

The classified columns are always filled with opportunities to buy, sell
